## TESTIMONIALS

“ ”

I am a student of Chemical Engineering. This course was really helpful for me. It made me change my point of view, reflect about my leadership style and how to deal with many different cultures, opinions and situations.

I was really happy to be able to experience a little bit of the whole process and to learn how to be an actual global leader.

*Abril Ximena B. - Mexico*

I major in Management Information Systems. There are some positions that I am considering for my career – such as Product Manager or Project Manager - so I want to know more about Leadership.

You can join this program to do some self-discovery: What you like to do, what you are able to do, and how to work in a team.

*Angie Y. - Taiwan*

“ ”

I am a fourth year Economics student. After I graduate, I'll be working at a global logistics company and will have to communicate with people in other countries.

In this program, I made many presentations with students from other countries. I think my skills improved gradually every day. It's very useful for my future.
